INDEX.

Aberdeen, Lord, Biographical Sketch of, 88
Æquoria vitrina, Reproduction in, by Dr T. S. Wright, 144
Aira caryophyllea in United States, 163
Allman, Professor, on the Phosphorescence of Berŏe, 284
——— on the Structure and Development of the Beroidæ, 285
Anemia, Homologies of Sporiferous Appendages of, by John Scott, 314
Angwántibo of Old Calabar, 257
Animal Series, and Parallelic Classification, 328
Araucaria imbricata, Remarks on, by Mr M'Nab, 312
Atractylis arenosa, 144
Australian Expedition to Gulf of Carpentaria, 319
Balfour, Professor, Notes of Trip to North of Italy and Chamouni, 133
——— on a New Species of Clerodendron (*C. Thomsonæ*) from Old Calabar, 232
Baxter, H. F., on Nerve Force, 7
——— on the Influence of Magnetism over Organic Force, 180
——— on the Connection between Organic Force and Crystalline Force, 194
Beaver, Habits of the, 299
Beeches, Disease of, 307
Berŏe, Phosphorescence of, 284
Beroidæ, Structure and Development of the, 285
Birds of Linlithgowshire and Berwickshire, by the Rev. John Duns, 295
Botanical Intelligence, 160, 324
Botanical Society of Edinburgh, Proceedings of, 130, 307
Bryson, Alexander, on the Aqueous Origin of Granite, 52
Buxbaumia aphylla, 324
Calluna vulgaris in United States, 162
Campbell, Lord, Biographical Sketch of, 95
Carrington, Dr Benjamin, on Cyperaceæ, 137
Catadioptric Altitude and Azimuth Circle, by Edward Sang, Esq., 292
Chondracanthus Lophii, Structure of, by William Turner, M.B., and H. S. Wilson, M.D., 290
Cleghorn, Dr Hugh, Notice of Voyage to Alexandria, 130
Clerodendron Thomsonæ of Old Calabar described, 232

XUM

Climate of Palestine, 169
Climatology, Medical, by Dr R. E. Scoresby-Jackson, noticed, 118
Coal, 145
Cœlenterata, Manual of, by Professor Joseph R. Greene, noticed, 129
Coffee-tree in Ceylon, Insects injurious to the, 17
Colour, Production of, by the Prism, and certain Optical Phenomena, 187
Cotton, On the Cultivation of, in India, 320
Cyperaceæ, Notes on the, 137
Dalzel, Professor Andrew, Biographical Sketch of, 282
Davies, J. Alexander, on the Production of Colour by the Prism, and certain Optical Phenomena, 187
De Candolle, Alphonse, Prodromus Systematis Naturalis Regni Vegetabilis, Part xv., 2d Section, 1st fascicula, noticed, 280
——— Casimir, on the Structure and Production of Cork in the Cork Oak, noticed, 281
Doherty, Dr Hugh, on Organic Method in Zoology, 63
Dyas, as applied to the Permian Group of Rocks, 71
Fishes, Cervical and Occipital Vertebræ of Osseous, 243
——— from Old Calabar, by Dr John Cleland, 303
Flowering of Plants in the Botanic Garden, 324
Forbes, Principal, on the Climate of Palestine in Modern compared to Ancient Times, 169
Fossil Plants in Coal-beds of Arkansas, 151
——— Fruits, Tertiary, in United States, 328
Geological Intelligence, 145, 328
Glaciers in New Zealand, 338
Granite, Aqueous Origin of, 52
Haast, Julius, on Glaciers and Alps of New Zealand, 338
Hebrides, Outer, Pagan Monuments of the, 235
Heteropoda, Anatomy and Classification of the, 289
Holothuria, New Form of, by Dr John Anderson, 302
Hydractinia arcolata, 144
Ichthyosaurus Normanniæ, 160
Jardine, Sir William, on the Salmon Fisheries of England and Wales in 1861, &c., 203
King, Professor William, on certain Species of Permian Shells said to occur in Carboniferous Rocks, 251
——— on the Origin of Species, 253
Labyrinthodon, 328
Lighthouses, Commissioners' Report on, reviewed, 113
Lightning Figures, Remarks on, 46
Livingstone Expedition, 338
Macdonald, John Denis, R.N., on the Anatomy and Classification of Heteropoda, 289
Magnetism and Organic Force, 180
Malvern Hills, Chemical Geology of, 1
Medlicott, H. B., on Sub-Himalayan Rocks, 154
Meteorological Register, by Alexander Brown, 336

Molecular Arrangement in Crystals, by Professor Tait, 298
More, Professor John Schank, Biographical Sketch of, 103
Mosses, some New and Rare British, by Mr John Sadler, 309
Mueller, Dr Ferdinand, on the Umbelliferæ of Australia and Tasmania, 160
Murchison, Sir Roderick I., on the Inapplicability of the term Dyas to Permian Rocks, 71
Mycoderms in Acetic Fermentation, 324
Nardoo Plant of Australia, 319
Nature and the Bible; or, God's Two Books, by Dr T. A. G. Balfour, noticed, 127
Neitner, J., on the Natural History of the Enemies of the Coffee-tree in Ceylon, 17
Nerve Force, Remarks on, 7
Organic Force and Crystalline Force, 194
Ornithological Notes, by Dr J. A. Smith, 305
Palestine, Climate of, 169
Pasteur on the part played by Mycoderms in Acetic Fermentation, 324
Permian Shells in Carboniferous Rocks, 251
Poinciana Playfairii (T. Anderson), 324
Polar or Compass Plant of Canada, 313, 323
Ramsay, Very Rev. Dean, Address at the Opening of the Session of the Royal Society of Edinburgh, 1861, 79
Rattlesnake, Remarks on the Venom of the, by Dr S. Weir Mitchell, 163
Reviews and Notices of Books, 113, 278
Robertson, Charles, on the Cervical and Occipital Vertebræ of Osseous Fishes, 243
——— Professor James, Biographical Sketch of, 109
Royal Society of Edinburgh, Proceedings of, 130, 282
——— Physical Society, Proceedings of, 140, 299
Saccharine Urine, Remarks on the Influence of an Acid in producing, by Dr F. W. Pavy, 166
St Hilaire, Isidore Geoffroy, on the Animal Series, and the Parallelic Classification, 328
Salmon Fisheries in England and Wales in 1861, 203
Salmon-fishing in the Severn, 209
——— in the Wye, 220
Scientific Intelligence, 145, 324
Scripture and Science not at Variance, by John H. Pratt, noticed, 126
Seaforthia elegans, Bursting of Spathe of, 308
Smith, Dr John Alexander, on the Angwántibo of Old Calabar, Africa, 257
Species, Summary of Lessons on the question of, 330
——— on the Origin of, 253
Stomach, Remarks on Structure and Function of, in Vertebrata, by Dr W. Brinton, 166
Sub-Himalayan Rocks, 154
Thomas, Capt. F. W. L., on the Geological Age of the Pagan Monuments of the Outer Hebrides, 235
Timins, Rev. J. H., on the Chemical Geology of the Malvern Hills, 1
Tomlinson, Charles, Remarks on Lightning Figures, 46

Trees at Dryburgh—Measurement of, 132
Umbelliferæ of Australia and Tasmania, 160
Vaudois Alps, Flora of, by Rostan, 134
Vegetation, Rev. Hugh Macmillan's Remarks on the First Forms of, noticed, 123
Vis Inertiæ Victa; or, Fallacies affecting Science, by James Reddie, noticed, 278
Wood, Formation of, 162
Wright, Dr T. Strethill, Address to the Royal Physical Society, 140
Zoological Intelligence, 328
Zoology, Organic Method in, 63
Zoophytes, British, Observations on, by Joshua Alder, 144

END OF VOLUME FIFTEEN—NEW SERIES.

EDINBURGH: PRINTED BY NEILL AND COMPANY.
